

Holiday Gift Guide: O+

November 08, 2011 by Lauren Carelli

Although Thanksgiving is the next holiday to approach us, it is never too early to start thinking about December and the perfect gift. In fact, many people try to start their shopping in late September in hopes to stay ahead of the madness that comes with every holiday season. Although chaos is inevitable, there is one item this year that will help shoppers boost their energy as they scour through stores and will also make for the perfect stocking stuffer.

As we enter 2012, everything seems to have a faster pace. From how we work to how we spend our free time people are constantly on the go, and one of the hardest tasks while going through day-to-day life, is not crashing. Turning to energy drinks and coffee is an easy solution, but some people who watch their calorie and caffeine intake need another outlet. Oxygen Plus Inc (O+) has the answer.

Packaged as portable, skinny canisters, O+ is calorie free, caffeine free canned oxygen for anytime you need a lift. But how does it work if you are just inhaling oxygen? The lightweight (and stylish) oxygen canisters contain 95% pure oxygen, which is more than four times the amount in unpolluted, every-day air. O+ quickly boosts your blood oxygen level and feelings of increased vitality, alertness and energy quickly return. Think of it as a power yawn.

O+ has three different packaging options to choose from so you can buy the one that suits your lifestyle best. The O+ Mini and O+ Skinni cans are available in peppermint, natural or grapefruit flavor and the O+ Elevate Pack is a reusable shell which comes with one natural and one peppermint can. It is effortlessly portable, going wherever you go, in purse, pocket or backpack.

Whether you are buying for a loved one or interested for yourself, all packages fit the lifestyles of a healthy and active person. If you are feeling sluggish due to recreational activities, work, traveling (on vacation to a tropical island?!) or getting through that holiday shopping, a couple hits of O+ will give you the extra boost you need.

These products can be seen at numerous prestigious hotels and luxury spas including W Hotels, The Ritz-Carlton, Viceroy Hotel Group, Hyatt Regency Hotels, Canyon Ranch Spa, and Exhale Spas to name a few. However, you don't have to go searching these hotels and spas to get your hands on O+, you can also purchase them online at www.oxygenplus.com.
