

## Oxygen + Revitalizing Oxygen Review

November 16, 2014 by PJ Cashman

### Oxygen+ Peppermint Spray

*Hiking in the mountains at higher elevations can be tough for those of us who aren't used to it. Hiking in the snow can be tough for anyone. Recently, I had the chance to try out the Oxygen Plus peppermint revitalizing oxygen while out hiking and it really helped. The company makes a full line of products that you can find [here](#) and they can be a lifesaver on a tough drag out, long hike, or simply after a stressful day of work.*

### Portable Oxygen to Increase Alertness

*Oxygen Plus is a natural alternative to things like caffeine and it can help give you more energy and increase alertness. These are two things that I want the most of when on a hunt, especially a physically taxing one. Popping a canister of Oxygen Plus in my bag can be just what I need to get out of a mid-morning slump and get some oxygen pumping back through my body.*

Oxygen Plus makes portable oxygen canisters that will give you a jump start, alleviate stress or get you your air back when hiking.
